American Gilsonite has asked for an extension to their November 1st deadline for Task #5962. I am confident that the operator is actively working on the plan to get it finished up. Can we please change the DD date to 12-30-14?

Thanks,

April

April,

The purpose of this e-mail is to update you on the status of our NOI update and to schedule a meeting to go through it. I will come out to the DOGM office.

NOI Update Status

I have completed the mine site inventories but only about half way through the NOI update. I am working on incorporating all of it into 1 large mine plan with subsections for each vein. I am not going to be able to make the Nov 1st deadline. I would like to push the deadline back to Dec 4th. On that date I would like to come out and have a sit down meeting with you on our NOI prior to publishing it. We can mark it up and then set a deadline for the final version to be submitted.

I appreciate your understanding,
Dean Richens

April,

Are you available to talk tomorrow? If so, what time would work best?

That's fine to change the date. Would you do this, please, Emily? I'll print this e mail as documentation of what we did.
